Move your body to achieve the tasks. Can you link the moves at speed?

## How to play

- In threes, one player stands opposite a partner holding one chiffon scarf, skipping rope or elastic in their right hand and one in their left hand.
- A player stands opposite and holds onto the ends of the scarf/elastic.
- The third player jumps over the scarves, turns and runs under the scarves, then runs around the two standing players to the other side and then slides/crawls under the scarves.
- The players holding the scarves crouch down to allow the player to jump over, hold them high for players to run through and crouch low for players to slide/crawl under.
- This can be played as race between trios. Instructions are called out: Over, under, round and slide. GO!
